

ZA13

PR48
Hearing Aid Battery
Swiss Made

Technical Data Sheet

Specifications

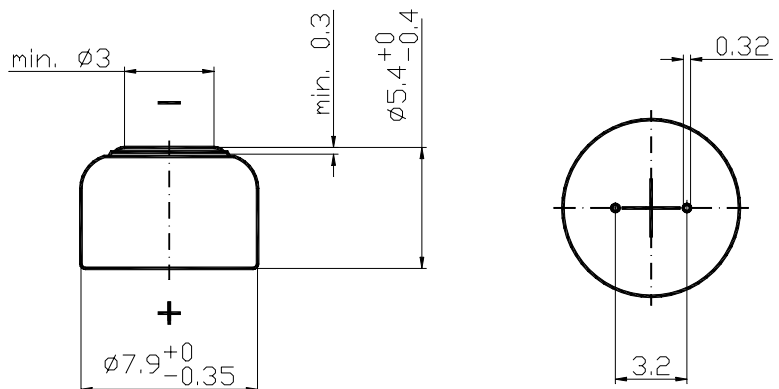

Chemical system	Zinc / Air
Nominal Voltage	1,4 V
Capacity	270 mAh, Discharge over 1,500 k Ω 12 hours per day at 20°C to 0,9 V
Operating Temperature	0°C – 50°C
Self Discharge	Less than 5% per year at 20°C with label applied
Weight	~0,90 g

**These batteries need air when they are used.
Battery compartment must allow free access of air.**

Dimensions

(according IEC 60086-2)

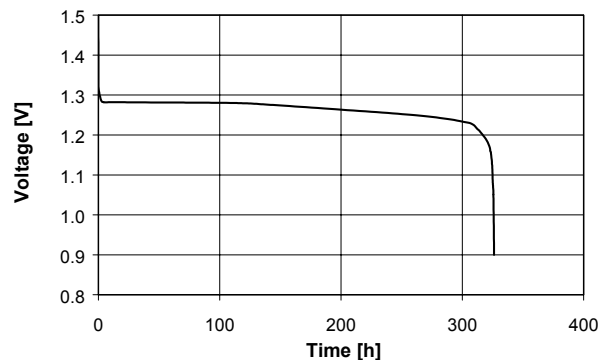

Diameter	7,9 mm (0,311")
Height	5,4 mm (0,213")

Discharge Curve

12 hours per day at 20°C, 7 days/week, 50% rh

Constant Load	1,500 k Ω
Average current Drain	0,83 mA

Rev. ZA13.10 06/02
